

Ashar Qaisar

Full-Stack Developer | AI Integration Engineer

noahext994@gmail.com | +92 316 4413714 | github.com/noah-zipit | linkedin.com/in/ashar-qaisar-47110337b | Gujranwala, Punjab, Pakistan

PROFESSIONAL SUMMARY

AI integration engineer with production experience deploying local and cloud-based LLM endpoints using Ollama, Open WebUI, and the NVIDIA NIM API. Builds and maintains autonomous AI agent frameworks, applies Python for machine learning and automation workflows, and delivers AI-powered features within full-stack applications. Certified in AI fluency and capabilities through Claude Academy.

TECHNICAL SKILLS

Programming	Python, SQL, JavaScript (ES6+)
Machine Learning & AI	Scikit-learn, TensorFlow, PyTorch, Machine Learning, Deep Learning, NLP, Computer Vision, Prompt Engineering, LLM Deployment, Agent Frameworks
AI Platforms & Integrations	Ollama, Open WebUI, NVIDIA NIM API, Hermes Agent, OpenClaw, REST API Integration
Tools & Platforms	Jupyter, Git, GitHub, Docker, VS Code, PM2, Linux (Ubuntu, Kali)
Systems & Deployment	SSH, Cloud Deployment, Netlify, Vercel, Containerization

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Developer & AI Integration Engineer

2019 – Present

Self-employed — Remote / Gujranwala, Pakistan

- Deployed local and cloud-based LLM inference endpoints using Ollama and Open WebUI, and integrated the NVIDIA NIM API for production AI workloads.
- Built and maintained autonomous AI agent frameworks (Hermes Agent, OpenClaw) for client and personal automation projects.
- Designed and integrated REST APIs using Python (FastAPI) and Node.js, connecting third-party services and AI endpoints for client projects.
- Provisioned and maintained Linux server environments (Ubuntu, Kali) for AI and application deployment, using Docker for containerization and PM2 for process management.
- Managed full client lifecycle on Upwork and Contra, scoping and delivering AI deployment, full-stack development, and cloud setup engagements.

PROJECTS

AI Agent Framework & LLM Deployment Portfolio | asharfolio.vercel.app

- Built and deployed autonomous AI agent frameworks and LLM inference endpoints, integrating Ollama and Open WebUI for local model serving.
- Developed SPECTR, an OSINT dashboard, applying Python-based data processing and full-stack development.

Kiku — Music Player Web App | kikuplayer.netlify.app

- Designed and built a browser-based music player application; managed end-to-end deployment pipeline on Netlify.

EDUCATION

HSSC — Pre-Engineering (Intermediate)

Allama Iqbal Open University (AIU) / BISE Gujranwala Board

Matriculation

Government College, Gujranwala

CERTIFICATIONS

- Claude Academy — AI Fluency for Builders
- Claude Academy — AI Capabilities and Limitations
- Claude Academy — AI Fluency for Creative Work
- NASA Open Science 101 (Credly Verified)
- Cisco Ethical Hacking (Credly Verified)
- Deloitte (via Forage) — Technology Job Simulation
